II. Mining and Reclamation

1. Was there any mine related activity during the past year? Yes ☒ No ☐
2. If no - what was the last year of activity?
3. If yes - how much ore or mineral was mined? approx. 4000 lbs. overburden was removed in attempt to discover or uncover mineable mineral and ore.

4. Briefly describe the type of work performed, volume of material moved, and any new or additional surface disturbances that occurred during the past year.

Nothing new: Overburden was removed  
to satisfy assessment work requirements  
for a period of two years -  
(through 2000) in attempt to expose mineral  
gemsets

5. How much **additional acreage** was disturbed during the past year? none

6. How much acreage was **reclaimed** during the past year? work is in progress on  
the claims.

7. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

Reasonable reseeding was done along  
the road - on dump site - and along  
any areas disturbed by equipment  
used in mining operation.

8. What is the **total** disturbed acreage of entire project at years end? not more than  
one acre.

9. Briefly summarize any mining and/or reclamation plans for the upcoming year.

Keep same plan of operation as in  
past years; develop existing mineral  
cuts / continue search for new mineral  
activity - mine ore as found / maintain and  
reclaim disturbed acreage.

**NOTE:**

Section III., "Additional Information" applies only to **large mining operations**.

**III. Additional Information**

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

**IV. Signature Requirement**

**I hereby certify that the foregoing is true and correct.**
